Searching for video lessons

Catherine Connors - 2022-07-11 - Comments (0) - Account

There are two ways to find video lessons. You can either search our subject list which opens when you hover over "Subject"

or, you can search terms through the "Search lessons" function. Click on the magnifying glass (next to Search Lessons). Type your topic in the Search box and use the filters (bottom left) to narrow your search. Filters include subject, language, lessons with a quiz, and free lessons.
